											Asian/PI	9.2			
202b Fairfield**	67	18	12	7.4	4.6	162.2	116.8-225.1	108,041	Urban	Pov100 11.9 Pov200 28.9	White	48.2	27.8	No	.
											Black	21.6			
											Am. Ind.	2.2			
											Other/Multi	25.1			
											Asian/PI	19.8			

\* Medical Service Study Areas as defined by Office of Statewide Health Planning and Development (OSHPD).

\*\* The proportion of advanced stage cervical cancers is significantly higher than in the comparison group (PIR p<0.01).

\*\*\* Patient to primary care physician ratio only provided for areas designated as Primary Care Shortage Areas by OSHPD. (Civilian Populaton:1 Physician).

Note: Statistical significance was not calculated for PIRs based on fewer than 15 total cervical cancer cases. Study results have been suppressed.
