# California Cancer Registry (CCR) DirectAccess at work for you

## CONNECTING YOUR BUSINESS TO THE RESOURCES YOU NEED FOR CANCER REPORTING

CCR DirectAccess allows you to keep pace with the reporting activities associated with cancer data management while increasing the accuracy and efficiency of the entire process. It is the solution that today's Hospital

Cancer Registry Managers, Hospitals, Ambulatory Offices, Dermatology Office, Certified Tumor Registrars, and Data Coordinators have been searching for.

## accurate, efficient and versatile tools for your data needs

**CCR DirectAccess SUPPORTS OPERATIONAL EFFICIENCY AND DATA QUALITY**

### REPORT MANAGEMENT

Monthly reports are just a few mouse-clicks away. Take the steps today to gain valuable and timely information. CCR DirectAccess can generate:

- Completeness, Timeliness, and Quality Report
- Edit Errors on File Upload Report
- Hospital Case Count Report
- Hospital Submission Timeliness Report
- Master Case Listing Report
- New Case Entry Report
- Visual Editing Accuracy Rate Report
- Visual Editing Discrepancy Detail Report

Do not see a report you can use? Ask us how we can customize reports to fit your business needs. Let us help you take your business reporting to the next level.

### IMPROVE DATA QUALITY

CCR DirectAccess supports operational efficiency and data quality. CCR DirectAccess can help you obtain your data quality goals:

- Automatic edits run at point of entry
- Single-screen visual editing
- Recoding Audit Module
- Complete audit log of all changes

Business Rules Management (BRM) technology has been integrated into Eureka as a foundation for quality control automation.

### REDUCE COST

Streamline the data collection process to reduce overhead costs. Become web-based, go paperless, use a single-screen for case processing, view and print monthly reports.

### ADVANCED SECURITY FEATURES TO PREVENT UNAUTHORIZED ACCESS

#### Multi-Factor Authentication

CCR DirectAccess two-factor authentication requires the use of two of the three authentication factors as defined with the Homeland Security Presidential Directive 12 (HSPD-12).

#### RSA Token

CCR DirectAccess uses a software based RSA algorithm as part of its cryptosystem to provide end to end encryption.

#### HTTPS / Secure Socket Layer (SSL) Secure Web Interface

CCR DirectAccess is accessed using a web based interface, there is no software to install. We have added an additional layer of security by employing the Hyper Text Transfer Protocol Secure, commonly referred to as HTTPS, url scheme to provide an extra layer of encryption to facilitate secure communication over computer networks.

#### RSA 256 bit encryption

CCR DirectAccess was designed from the ground-up with security in mind. CCR DirectAccess employs the RSA 256 bit encryption to keep data secure. This is the same level of security used for financial transactions by some banks.

### SECURE ACCESS GRANTED TO HOSPITALS

- FOR FILE UPLOAD
- FOR FILE DOWNLOAD
- TO PRINT MONTHLY REPORTS
- FOR SHARED FOLLOW-UP INFORMATION

### CENTRALIZED DATA STORAGE

With CCR DirectAccess all data is processed and stored in a single location. That saves time, money, and reduces the possibility of error.

### WEB-BASED ACCESS

Available to you to work anywhere, any time.
