Prepared by the California Department of Public Health (CDPH), California Cancer Registry.

Source: California Cancer Registry (November 2016).

Note: For cases diagnosed 1988-2003, American Joint Committee on Cancer (AJCC) stage at diagnosis is based on extent of disease (EOD) codes; conversion is consistent with the AJCC Manual for Staging of Cancer, 3rd Ed. as modified by SEER. Excludes Stage II, NOS (0.7% of cases) and cases which could not be staged because of coding errors (less than 2.4%). For cases diagnosed 2004 and forward, AJCC stage at diagnosis is based on Collaborative Stage codes converted to AJCC using an algorithm provided by the Collaborative Staging Taskforce. Rates based on fewer than 15 cases are not shown. Race/ethnicity categories are mutually exclusive. Persons of Hispanic ethnicity may be of any race.

Prepared by the California Department of Public Health (CDPH), California Cancer Registry.

Source: California Cancer Registry (November 2016).

Note: For cases diagnosed 1988-2003, American Joint Committee on Cancer (AJCC) stage at diagnosis is based on extent of disease (EOD) codes; conversion is consistent with the AJCC Manual for Staging of Cancer, 3rd Ed. as modified by SEER. Excludes Stage II, NOS (0.7% of cases) and cases which could not be staged because of coding errors (less than 2.4%). For cases diagnosed 2004 and forward, AJCC stage at diagnosis is based on Collaborative Stage codes converted to AJCC using an algorithm provided by the Collaborative Staging Taskforce. Rates based on fewer than 15 cases are not shown. Race/ethnicity categories are mutually exclusive. Persons of Hispanic ethnicity may be of any race.

Risk (Percent) of Being Diagnosed with Invasive Cancer within the Next 10, 20, or 30 Years, or in the Remaining Lifetime, Assuming Cancer Free at Current Age, and Lifetime Risk of Being Diagnosed with or Dying of Cancer by Race/Ethnicity and Sex, Breast Cancer
