Solid Tumor Rules - April 2019 Update

Based on questions concerning **breast** and **urinary** Solid Tumor rules, SEER has updated these modules.

- Notes, examples, and rules have been clarified.
- Urinary M rules have been re-ordered as needed.
- A comprehensive change log has also been posted for reference: The change documents are located under the **April 2019** Changes header.
- The updated modules have been incorporated into the consolidated .pdf and are also available individually. The revision date is noted in the footer: April 2019 Update.

IMPORTANT:

The updated rules published April 2019 apply to the following sites **only**:

- Breast
- Urinary

Please review the updated Solid Tumor Rules for Breast and Urinary cancers @:
