

Quality Control Unit Data Alert - Registrar 2019-01

Visually Edited Data Items - 2018

The list of visually edited data items for 2018 has been posted to the CCR website.

[Click Here!](#)

to go to the website.

The Accuracy Rate requirement has been suspended for the first six months of 2019 due to the large number of data changes. No Accuracy Reports will be generated or distributed during this timeframe.

As a reminder, 8th Edition AJCC TNM data items for 2018 cases are not required by the CCR. They will be required to be collected for CoC accredited facilities. TNM data item variables will be accepted by the CCR from CoC accredited facilities, however they are not required to be collected from non-CoC accredited facilities.
