Reportability Update

Subject: Borderline Ovarian Tumors

Effective: Cases Diagnosed 1/1/2016 forward

The CCR will no longer require borderline ovarian tumors to be collected – effective with cases diagnosed 1/1/2016 forward. This is a State of California reportability rule change. Cases diagnosed prior to 1/1/2016 are to continue to be reported.

Volume I will be updated with this information in the next release scheduled for spring 2016.
