

Quality Control Unit
Data Alert – Registrar 2021-26
Approval to Transmit Cases Diagnosed in 2021

If you have abstracting software that has been approved for 2021 by the California Cancer Registry, you are now authorized to complete and to transmit cases diagnosed in 2021.

[Approved Software Vendors](#) are listed on the California Cancer Registry website, Data Standards and Reporting, Approved Software Vendors section.

Reminder: Abstracting software must be approved by the CCR, prior to case transmit.
