

Quality Control Unit Data Alert – 2023-05 Visually Edited Data Items - 2023

The California Cancer Registry (CCR) has prepared and posted the list of 2023 [Visually Edited Data Items](#) for 2023 Data Changes to the CCR Website.

Highlights of changes include:

- **Data Items added for VE in 2023, required for Diagnosis 2023 +**
 - Histologic Subtype (Appendix V9)
 - Clinical Margin Width (Melanoma Skin)
 - New California specific **Surg Prim 1-3** (2023+) data items have been created to correspond to the new 2023 surgery code changes.
- **Data Items excluded for VE in 2023** (unless specified, will still apply to cases with a Date of Diagnoses prior to 2023).
 - Estrogen Receptor Total Allred Score (Breast)
 - Progesterone Receptor Total Allred Score (Breast)
 - **All date flag data item** have been retired as of 2023. VE will no longer be required for any year of diagnosis on date flag items.
 - The existing California specific **Surg Prim 1-3** data items have been renamed to Surg Prim (03-2022).

Please review the complete CCR Visually Edited Data Item list for 2023.
