

Quality Control Unit Data Alert – 2026-09 Reminder – Edit Requirements for Hospitals

As a reminder, per Volume II (Standards for Automated Reporting), hospitals must run edits on **both NAACCR Modified Records and NAACCR Abstracts** prior to transmission to the California Cancer Registry.

See the current [Volume II](#), Section III.2, which includes the following statement:

“CCR edits must be run and any edit errors corrected before the creation of a New Case Record or Modified Record submission file. Modified Records will be rejected by the CCR’s central system software if they are unable to pass the CCR edits, and the facility will be required to fix the necessary data items prior to the next scheduled monthly transmit. Please see Section II.3.3 for further requirements for the Modified Record.”

If you have questions regarding your edit set, **please contact your software vendor** for assistance.

Note: Volume II is available here: <https://www.ccrca.org/submit-data/cancer-registrars-hospitals-and-facilities/reporting-by-cancer-registrars/>
