

Quality Control Unit Data Alert – Vendor 2021-06 v22 XML User Dictionary

The California Cancer Registry (CCR) has posted the 2022 California-Specific Data Items for Facility-to-California Cancer Registry Transmission [XML User Dictionary](#) – Last updated: 10/14/2021 and its accompanying details specification to the NAACCR XML Submission Clearinghouse. No California-Specific data items have been added, removed, or changed, but the NAACCR Version has been changed to 220, the specification version has been changed to 1.5, and the new dateLastModified attribute has been added. The file names have been changed to include 220 accordingly.

NOTE: The 2021 versions of these files can still be accessed from the [CCR Website](#); Standards and Reporting, Cancer Registrars; Hospitals, and Facilities; Reporting by Cancer Registries; Volumes I-V. The new 2022 versions have also been posted under Volume II – 2022.
