Vendor Alert – 2024-02
v24 XML User Dictionary

The California Cancer Registry (CCR) has posted the 2024 California-Specific Data Items for Facility-to-California Cancer Registry Transmission [XML User Dictionary](#) – Last updated: 06/14/2024 and its accompanying details specification to the NAACCR XML Submission Clearinghouse. 3 new Date/time fields have been added, and patNoContact has been replaced with the NAACCR field – NoPatientContactFlag. The specification version has been changed to 2. The file names have been changed to include 240 accordingly.

NOTE: The 2023 versions of these files can still be accessed from the [CCR Website](#); Standards and Reporting, Cancer Registrars; Hospitals, and Facilities; Reporting by Cancer Registries; Volumes I-V. The new 2024 versions have also been posted under Volume II – 2024.
