2018 Data Changes Presentation

A Recorded presentation on the 2018 Data Changes is now available on the CCR website under the **Annual Data Changes Recorded Presentation tab.** Also available are PDF slide presentation handouts. Due to the number of data items reviewed, the material is split into two parts. Part 1 covers the new data items. Part 2 covers revisions and updates. The presentations review the hospital related data items and the CCR collection requirements. We hope you find this information useful. To review the 2018 Data Changes Presentations, Part 1 and Part 2, **Click Here!**
